THE MAYORALITY.

THE MATCHALITY.

Messrs. Editors: I crave a short space in your paper to give my views why Mr. Joseph C. Dickerson should receive the hearty support of the Democratic voters of Richmond in the coming primary for the office of Mayor.

Born and reared in our midst, at the first call of duty made by hir State he responded promptly and made a record in the Army of Northern Virginia second to none as a true and faithful soldier of the Lost Cause. At the close of the war he returned to Richmond without a dollar, starting the manufacturing business now conducted by him on Franklin street, which has been managed with success. He has reared and educated a large family of children, and stands to-day among the best-known and most widely-respected manufacturing merchants of our city.

among the best-known and most widelyrespected manufacturing merchants of
our city.

He has been a member of the Board of
Aldermen for the past sixteen years, and
during that entire period has never missed
but two meetings, whether called or
regular; consequently, has met every issue for the welfare of the city squarely
and fairly. He has been regarded as
possibly the ablest dehator this body has
ever produced, and his knowledge of city
affairs and the various ordinances passed
since the war is superior to that of any
other man in public life in Richmond.
Mr. Dickerson is a forcible speaker, clear
and concise in his language, is one of the
closest and clearest thinkers of any of
the public men of our city.

For his services to the free-school system of our city no man deserves more
traise than Mr. Dickerson. He has been

the public men of our city.

For his services to the free-school system of our city no man deserves more praise than Mr. Dickerson. He has been its unfaltering friend, its devoted advocate, and in the stormy days of readjustment, as the chairman of the Council Committee on Schools, he stood like a "Stonewall," almost solltary and alone, to defeat the mechanism of the Mahone party, which menaced its destruction.

Too much cannot be said in his praise for his unswerving devotion to and attachment to the great Democratic party and its principles since the days of reconstruction to the present time. First and foremost in its councils and battles, he has never been a laugard, but has materially aided in ail of its victories and stood by it in all of its adversities.

Mr. Dickerson has the happy faculty of being easily approached by all classes of citizens. The mechanic, the manifacturer, the merchant, the capitalist, find in him a pleasant and courteous gentleman, one alive to every interest that affects our city, and if he should be the choice of the Democratic voters of Richmond, there is no man who will give more time and attention to the arduous duties of the office of Mayor than he. If Mr. Dickerson is nominated the citizens of Richmond can safely count upon the fact that he will be among the first to enter the City Hall in the morning and the last to leave at night, appreciating the fact that all classes of our citizens have the right to see him and to consult him upon all matters apportaining to
